WHAT IS THE CONTRACTOR TOOLBOX?

Contractor ToolBox helps Simplify Maintenance Quotes for Companies. Pricing out maintenance can be a challenge for many businesses. With Contractor ToolBox, we have developed a database that enables us to establish five criteria for various roof systems.

This streamlined process allows for accurate and consistent quoting with just one click. Say goodbye to manual calculations and hello to attractive, professional proposals generated instantly.

DETAILED SURVEYS THAT STAND OUT

With our survey feature, you can impress clients by providing detailed descriptions of the problem and proposed solutions. You can enhance your surveys with visual aids, including annotated pictures using drawing tools. Plus, as you secure jobs, our database automatically generates work orders for you with just a simple button click, streamlining your workflow.

OUR STORY IS EXPERIENCE & TRUSTED KNOWLEDGE

Born out of a vision in the year 2021, Contractor ToolBox came to life under the dedicated and experienced helm of Bryan Mitchell and Eric Harmon. Their shared and impressive journey, heavily imprinted with vast years of navigating the complex waters of the Roofing Industry, gave them the perfect foundation to establish such an enterprise.

Bryan, a seasoned connoisseur in the world of roofing, is armed with over 20 years of hands-on, practical roofing experience. His multi-faceted professional journey includes remarkable stints at distinguished firms such as Advanced Estimating Systems, Inc., where he served as the General Manager, and Best Roofing, Inc., where he applied his vast knowledge as Vice President. Both these commendable companies are situated in the vibrant and thriving environment of South Florida.

Complementing Bryan's skillset, Eric brings an impressive record of 40 years of experience, primarily devoted to developing software that ties seamlessly into the world of construction. More specifically, a significant chunk of his career, a staggering 32 years, has been deeply focused on the roofing industry, attesting to his specialized expertise and commitment to this particular field.
